WHAT IS THE GREEN ECONOMY?

The green economy is all about creating jobs, products, services, and ideas that help protect our planet and build a more sustainable future.

Key Green Sectors in Newfoundland and Labrador

Renewable Energies
Wind, hydroelectric, low-carbon fuels, and other clean energy sources.

Clean Technologies
New and innovative solutions that reduce pollution and make industrial processes cleaner.

Sustainable Development
Using natural resources in ways that support economic growth, healthy communities and a healthy environment.

Circular Economy
Keeping resources in use for as long as possible through reducing waste, reusing, and recycling.

Green Buildings
Energy-efficient buildings that are healthier for people and better for the environment.

There's a Place For You!

No matter your interests or skills, you can play a role in Newfoundland and Labrador's green economy.
